for Water

The LIFE Eau&Climat project-  
**Supporting long-term local decision-  
making for climate-adapted Water  
Management (LIFE19 GIC/FR/001259)**  
aims to support local water resources  
managers, especially within the framework  
of the «Schémas d'Aménagement et de  
Gestion des Eaux», **SAGE**, to assess the  
effects of climate change, to take them  
into account in their planning tools and to  
implement adaptation measures.

The 21 SAGE involved in the LIFE Eau&Climat project

## ACTIONS

DEVELOP DECISION SUPPORT TOOLS

FACILITATE THE MOBILIZATION OF LOCAL  
STAKEHOLDERS

IMPROVE ACCES TO HYDRO-CLIMATIC DATA

STRENGTHEN KNOWLEDGE TRANSFER AND  
EXCHANGES BETWEEN RESEARCHERS AND  
MANAGERS

ENSURE THE REPLICABILITY AND TRANSFERABILITY  
OF THE RESULTS IN FRANCE AND IN EUROPE

The LIFE Eau&Climat (LIFE19GIC/FR/001259)  
project has received funding from the European  
Union LIFE program.
